Report on the Audit of Financial Statements

Opinion

We have audited the accompanying financial statements of the Washington Suburban Sanitary Commission's Employees' Retirement Plan (the Plan), a component unit of the Washington Suburban Sanitary Commission, as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Plan as of December 31, 2022 and 2021, and the changes in fiduciary net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

The Commissioners and Board of Trustees
Washington Suburban Sanitary Commission
Employees' Retirement Plan

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (MD&A), the schedule of changes in net pension liability and related ratios, the schedule of employer contributions, and the schedule of investment returns be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 13, 2023, on our consideration of the Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Plan's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control over financial reporting and compliance.

**WASHINGTON SUBURBAN SANITARY COMMISSION
EMPLOYEES' RETIREMENT PLAN
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
DECEMBER 31, 2022 AND 2021**

The Washington Suburban Sanitary Commission Employees' Retirement Plan (the "Plan") provides retirement benefits to the employees, retirees, and beneficiaries of the Washington Suburban Sanitary Commission ("WSSC Water"). To facilitate understanding the Plan's financial performance for the years ended December 31, 2022 and 2021, management has prepared this discussion and analysis. The following discussion and analysis should be read in conjunction with the Plan's financial statements and supplementary information provided in this report.

OVERVIEW OF THE FINANCIAL STATEMENTS AND SCHEDULES

The financial information presented in this report includes two financial statements, the notes to the financial statements, and supplementary information.

The Statements of Fiduciary Net Position show the amount of assets and deferred outflow of resources, liabilities and deferred inflow of resources, and net position held in trust for pension beneficiaries as of the end of the current and prior calendar years.

The Statements of Changes in Fiduciary Net Position show the additions to, and reductions in, the Plan's net position during the current and prior fiscal years. The statements present the major sources and uses of funds.

The Notes to Financial Statements contain disclosures and discussions which support the data presented in the financial statements. The notes present information about the creation and administration of the Plan, significant accounting policies and investments. The notes are an integral part of the financial statements and should be considered in conjunction with any review of the financial statements.

The Required Supplementary Information includes additional information on the Plan's financial condition and trends, including information on changes in the net pension liability and related ratios, benefits changes, actuarial assumption changes, contributions, methods and assumptions used to determine contribution rates and investment returns.

FINANCIAL HIGHLIGHTS

Fiscal Year 2022

- As of December 31, 2022, the Plan's net position held in trust for current and future retirement benefits was \$828.6 million. This reflects a decrease in the Plan's net position of \$183.5 million from the prior year.
- The net investment loss was \$140.5 million for fiscal year 2022. This was comprised of \$154.1 million net depreciation in the fair market value of investments, \$16.2 million in dividends and interest income, less investment expenses of \$2.6 million. For fiscal year 2021, the net investment income was \$140.5 million. The 2022 decrease reflects the world equity markets decline and the volatility due to on-going concerns over trade tensions and global growth.

**WASHINGTON SUBURBAN SANITARY COMMISSION
EMPLOYEES' RETIREMENT PLAN
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
DECEMBER 31, 2022 AND 2021**

- The total investment return for 2022 was a decline of 13.1%. For the period ended December 31, 2022, the Plan returned 4.6% per annum over the past five years and 6.9% annualized over the past ten years.

Fiscal Year 2021

- As of December 31, 2021, the Plan's net position held in trust for current and future retirement benefits was \$1,012.1 million. This reflects an increase in the Plan's net position of \$114.5 million from the prior year.
- The net investment gain was \$140.5 million for fiscal year 2021. This was comprised of \$125.3 million net appreciation in the fair market value of investments, \$17.1 million in dividends and interest income, less investment expenses of \$1.9 million. For fiscal year 2020, the net investment income was \$82.7 million. The 2021 increase reflects the continued recovery in the financial markets throughout 2021.
- The total investment return for 2021 was 16.4%. For the period ended December 31, 2021, the Plan returned 10.9% per annum over the past five years and 9.8% annualized over the past ten years.

DECEMBER 31, 2022 AND 2021**

Fiscal Year 2022

The Plan's cash, cash equivalents and investments for fiscal year 2022 decreased by \$189.2 million or 17.6%. The decrease was due primarily to investment loss of \$137.9 million before investment expenses of \$2.6 million, contributions totaling \$32.4 million, and benefit payments and refunds of \$75.3 million.

As shown in Table 2a - Investments by Manager/Advisor with Average Annual Rates of Returns for the year ended December 31, 2022, a significant portion of the Plan's investments were managed by Vanguard (31.6%), Empower/Prudential Retirement Insurance and Annuity Company (10.0%), William Blair/Investment Counselors of Maryland (7.8%) and Dodge & Cox Global Stock (7.9%). For the year ended December 31, 2022, all but one managers/advisors reflected a negative return for funds under management. Overall, the weighted average annual rate return was -14.2% which contributed to a decrease in net investment loss by 200.0% to \$140.5 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
DECEMBER 31, 2022 AND 2021**

Receivables for fiscal year 2022 increased by \$0.5 million or 67.1% primarily due to an increase in dividend and accrued interest receivable.

Total liabilities decreased by \$5.2 million or 8.1%. This is due primarily to a decrease in payables for collateral received under securities lending agreements which decreased from \$62.8 million in 2021 to \$57.3 million in 2022 or a decline of 8.8%.

Fiscal Year 2021

The Plan's cash, cash equivalents and investments for fiscal year 2021 increased by \$124.8 million or 13.1%. The increase was due primarily to investment gains of \$142.3 million, contributions totaling \$42.9 million, and benefit payments and refunds of \$68.9 million.

As shown in Table 2b - Investments by Manager/Advisor with Average Annual Rates of Returns for the year ended December 31, 2021, a significant portion of the Plan's investments were managed by Vanguard (36.3%), Empower/Prudential Retirement Insurance and Annuity Company (9.4%), William Blair/Investment Counselors of Maryland (7.2%) and Dodge & Cox Global Stock (6.9%). For the year ended December 31, 2021, all but one managers/advisors reflected a positive return for funds under management. Overall, the weighted average annual rate return was 15.9% which contributed to an increase in net investment income by 69.9% to \$140.5 million.

During the year, the Board of Trustees met regularly to monitor investment manager performance. During calendar year 2021, Board actions included:

- Voted in February 2021 to correct a U.S. Equity overweight by funding 1Q21 annuity payments via a transfer of \$20 million from domestic small cap manager ICM to the Prudential Guaranteed Deposit Account.
- Voted in May 2021 to correct a U.S. Equity overweight by transferring \$30 million from the Vanguard Total Stock Market Index to the Prudential Guaranteed Deposit Account.
- Voted in July 2021 to rebalance International Equities and reduce its overweight by redeeming \$50 million from Morgan Stanley and transferring \$10 million to the Prudential Guaranteed Deposit Account and fund a Fidelity International Index Fund with the remaining \$40 million.

Receivables for fiscal year 2021 decreased by \$0.06 million or 7.4% primarily due to a decrease in dividend and accrued interest receivable.

Total liabilities increased by \$10.2 million or 19.2%. This is due primarily to an increase in payables for collateral received under securities lending agreements which increased from \$52.3 million in 2020 to \$62.8 million in 2021 or 20.0%.

DECEMBER 31, 2022 AND 2021**

Fiscal Year 2022

Net investment income was comprised of interest and dividends and net appreciation/depreciation in the fair value of investments less investment expenses. Interest and dividends decreased, from \$17.1 million in 2021, to \$16.2 million in 2022. The financial markets reflected unfavorable conditions during the year and, accordingly, the net depreciation in the fair value of the investments was \$154.1 million for 2022, compared to an increase of \$125.3 million for year 2021. The decrease in net investment income was primarily due to the losses in most of the Plan's funds reflecting negative rates of return in 2022.

Investment expenses increased by \$0.8 million or 40.7%. Investment expenses represent approximately 0.32% or 32 basis points of average net position.

Participant and Plan sponsor contributions decreased in 2022 to \$32.4 million from \$42.9 million in 2021. The decrease is due to the change in payment frequency of the Plan sponsor's cash contributions to a lump-sum payment in early July of the audited year, compared to 2021, all payments occurred within the Commission's Fiscal Year 2022 as part of a plan to improve the Commission's liquidity as WSSC Water customers were impacted by the spread of the Coronavirus Disease (COVID-19) a worldwide pandemic.

Fiscal Year 2021

Net investment income was comprised of interest and dividends and net appreciation/depreciation in the fair value of investments less investment expenses. Interest and dividends decreased, from \$24.0 million in 2020, to \$17.1 million in 2021. The financial markets reflected favorable conditions during the year and, accordingly, the net gain in the fair value of the investments was \$125.3 million for 2021, compared to \$60.2 million for year 2020. The increase in net investment income was primarily due to the most of the Plan's funds reflecting positive rates of return in 2021.

Investment expenses increased by \$0.3 million or 20.7%. Investment expenses represent approximately 0.19% or 19 basis points of average net position.

Participant and Plan sponsor contributions increased in 2021 to \$42.9 million from \$21.3 million in 2020. This increase is due to the change in payment frequency of the Plan sponsor's cash contributions, with all payments occurring within the Commission's Fiscal Year 2022. The change was implemented as part of a plan to improve the Commission's liquidity as WSSC Water customers were impacted by the spread of the Coronavirus Disease (COVID-19) a worldwide pandemic.

PLAN FUNDING

Fiscal Year 2022

On an annual or biennial basis, the market value of the Plan's assets and its investment gains and losses are reviewed by the Plan's actuary to determine the viability and funding progress of the Plan, the latest of which was performed effective June 30, 2022. The Plan's actuarially determined target rate of investment return is 7.0% net of expenses, reflecting the most recent Assumption Study, which also updated assumptions concerning mortality, inflation, and salary scale.

The Plan began using the average value method to determine actuarial asset value effective July 1, 2007. This smoothing method explicitly recognizes each year's investment gain or loss over a five-year period with the final actuarial value not less than 80% or more than 120% of the market. There are currently no known facts, decisions, or conditions that will significantly impact the net position in the future.

NOTE A. DESCRIPTION OF PLAN

General

The Washington Suburban Sanitary Commission Employees' Retirement Plan (the Plan), a single employer contributory defined benefit retirement plan, was established in 1967 to provide retirement and death benefits for the employees of the WSSC Water under conditions set forth in the Plan Document based on an employee's age, length of service and compensation. The Retirement Plan Document is amended from time to time. As of December 31, 2022, the Plan was last amended in April 2019. The Plan may be amended by Commission resolution or by the Executive Director on behalf of the Commission.

WSSC Water implemented the Open Version of the Plan on July 1, 1978. Members of the Plan as of June 30, 1978 had an option to be included in the Open Version. This option expired December 31, 1978. The Open Version is mandatory for new employees. It generally provides for reduced employee contributions and benefits.

As of December 31, 2022, and 2021, there were 1,589 and 1,670 employees, respectively, participating in the Open Version of the Plan, and 3 and 4 employees, respectively, participating in the Closed Version of the Plan, a total of 1,592 and 1,674 employee participants, respectively.

As of December 31, 2022, and 2021, there were 1,693 and 1,706 retirees and/or beneficiaries, respectively, receiving benefits from the Plan, and there were 149 and 124 terminated vested employees, respectively, not yet receiving benefits. Eleven and twenty-five employees retired in fiscal years 2022 and 2021, respectively, and began receiving benefits in subsequent fiscal years.

The Plan provides a review process for participants whose claim for benefits is denied. There were no reviews pending as of December 31, 2022 and 2021.

Contributions

The Plan requires employees under the Closed Version to contribute 6% of gross wages and employees under the Open Version to contribute 3% of gross wages as a condition of employment. WSSC Water contributions are determined through the budget process as recommended by the Executive Director annually based upon a level percentage of payroll costs based on the advice and recommendation of an Actuary based on generally accepted actuarial principles.

NOTE A. DESCRIPTION OF PLAN (Continued)

Expenses

WSSC Water pays the administrative expenses of the Plan, other than investment management, legal, and consulting fees. WSSC Water is reimbursed by the Plan for the paid administrative expenses per Plan amendment of July 2, 2019. As of December 31, 2022 and 2021, the Plan reimbursed WSSC Water of \$1,221,424 and \$759,672, respectively, for paid administrative expenses.

Pension Benefits

The Plan provides for 100% vesting of retirement benefits after five years of credited service.

Generally, the normal retirement benefits payable to an eligible participant are equal to the sum of:

1. 2.1% of final average monthly compensation multiplied by the Closed Version credited service, plus
2. 1.4% of final average monthly compensation multiplied by the Open Version credited service where the sum of Closed Version credited service and Open Version credited service, exclusive of accumulated sick leave service is subject to a maximum of 36 years.

The Plan provides options for disability and early retirement to eligible participants or their surviving spouses.

The Plan provides for periodic cost of living increases to retirement benefits. Participants covered by the Closed Version will receive an increase two months following a sustained increase (over two consecutive months) in the Consumer Price Index of 3% or more. Participants in the Open Version receive an increase each March 1, based on the preceding calendar year's increase in the Consumer Price Index. The first increase may be pro-rated depending on the time of retirement.

Plan Termination

In the event of termination, Plan assets are to be allocated in the following priorities:

1. Expenses, fees and other charges under the Plan, not previously paid.
2. Pension benefits based upon contributions made by employees and interest earned thereon.
3. Pension benefits based upon contributions made by the employer which are vested.
4. All other pension benefits under the Plan.

NOTE A. DESCRIPTION OF PLAN (Continued)

Plan Governance

WSSC Water established a Board of Trustees (the “Board”) for the Plan to be responsible for the investment management of the Plan’s assets for the exclusive benefit of the Plan’s participants. The trustees are governed by a Trust Agreement. The agreement provides for trustees to be appointed by WSSC Water and for the eleven-member Board to be composed of two Commissioners, four employees who are participants of the Plan, two representatives of the public, two retirees who are participants in the Plan, and the Executive Director of the Plan.

The administration of the Plan is managed by the Executive Director of the Washington Suburban Sanitary Commission Employees’ Retirement Plan who is appointed by the General Manager of WSSC Water.

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity and Basis of Accounting

The reporting entity consists of the Plan, which is a component unit of the WSSC Water. The financial statements of the Plan are presented using the economic resources measurement focus and the accrual basis of accounting. Member contributions are recognized as revenue in the period in which the contributions are due. Employer contributions are recognized when due and a formal commitment has been made to provide the contributions. Benefits and refunds are recognized when due and payable. Investment income is recognized when earned.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Plan considers all cash and highly liquid investments with an original maturity of three months or less to be cash and cash equivalents.

DECEMBER 31, 2022 AND 2021**

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments

The Plan categorize fair value measurements within the fair value hierarchy established by GASB Statement No. 72, *Fair Value Measurement and Application*. The valuation technique uses a three-level hierarchy of inputs to measure the fair value of the asset and gives the highest priority to unadjusted quoted prices in active markets (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

These classifications are summarized as follows:

- *Level 1 Inputs:* Quoted prices (unadjusted) for identical assets or liabilities in active markets that a reporting entity can access at the measurement date.
- *Level 2 Inputs:* Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- *Level 3 Inputs:* Unobservable inputs for an asset or liability.

Fair value of certain investments that do not have a readily determinable fair value is established using net asset value (or its equivalent) as a practical expedient. These investments are not categorized according to the fair value hierarchy.

The Plan holds investment contracts with Empower/Prudential Financial. The fair value of these contracts is determined based on the fair value of the underlying pooled assets and is an estimate only and not the result of a precise calculation which would be done at contract discontinuance or to measure the impact of excess withdrawals in any calendar year. It does not constitute an offer by Empower/Prudential Financial or a final experience adjustment.

Net appreciation (depreciation) in the fair value of investments reflected in the Statement of Changes in Fiduciary Net Position includes realized gains and losses on investments that were sold during the year and unrealized appreciation (depreciation) in the fair value of investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE C. TAX STATUS

The Plan obtained its latest determination letter dated April 26, 2017, in which the Internal Revenue Services stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code; therefore, the Plan was qualified, and the related Trust was tax exempt as of December 31, 2022 and 2021.

**WASHINGTON SUBURBAN SANITARY COMMISSION
EMPLOYEES' RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

NOTE D. CASH AND CASH EQUIVALENTS

Cash and cash equivalents consisted of short-term investments funds of \$3,153,146 and \$4,406,523 as of December 31, 2022 and 2021, respectively.

At December 31, 2022, the weighted average maturity (WAM) for the Trust's Short Term Investments was 23 days. At December 30, 2022 the rating for Short Term Investments was A1+ by Standard & Poors.

NOTE E. SECURITY LENDING

The Board of Trustees permits the Plan to lend its securities to broker-dealers and other entities (the "Borrowers") for collateral that will be returned for the same securities in the future. The Plan's custodian is the agent in lending the Plan's securities for collateral of 102 percent for domestic securities and 105 percent for international securities. The custodian receives cash, securities, or irrevocable bank letters of credit as collateral. All securities loans can be terminated on demand by either the Plan or the Borrowers. Cash collateral received from the Borrowers is invested by the lending agent, as an agent for the Plan, in a short-term investment pool in the name of the Plan, with guidelines approved by the Board. Such investments are considered a collateralized investment pool. The relationship between the maturities of the investment pool and the Plan's loans is affected by the maturities of securities loans made by other plan entities that invest cash collateral in the investment pool, and which the Plan cannot determine. The Plan records a liability for the return of the cash collateral shown as collateral held for securities lending in the Statements of Plan Net Position. The Board does not restrict the amount of loans the lending agent may make on its behalf. The agent indemnifies the Plan by agreeing to purchase replacement securities, or return the cash collateral thereof, in the event a Borrower fails to return loaned securities or pay distributions thereon.

As of December 31, 2022, and 2021, the fair value of securities on loan was \$55,949,396 and \$61,126,835, respectively. Cash received as collateral and the related liability of \$57,294,296 and \$62,797,840 as of December 31, 2022 and 2021 are shown on the Statements of Plan Net Position. Securities received as collateral are not reported as assets since the Plan does not have the ability to pledge or sell the collateral securities.

Securities lending revenues and expenses amounting to \$993,547 and \$897,642, respectively, for December 31, 2022 and \$114,919 and \$47,635, respectively, for December 31, 2021, have been classified with investment income and investment expenses, respectively, in the accompanying financial statements.

NOTE E. SECURITY LENDING (Continued)

The following represents the balances relating to the securities lending transactions as of December 31:

	2022		2021	
	Fair Value of Underlying Securities	Cash Collateral Investment Value	Fair Value of Underlying Securities	Cash Collateral Investment Value
Securities Loaned for Cash Collateral				
Corporate Bonds	\$ 6,501,534	\$ 6,670,552	\$ 10,289,432	\$ 10,560,785

Total	<u>\$ 55,949,396</u>	<u>\$ 57,294,296</u>	<u>\$ 61,126,835</u>	<u>\$ 62,797,840</u>

The Plan is fully indemnified by its custodial bank against any losses incurred as a result of Borrower default.

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At December 31, 2022 and 2021, there were no funds held by a counterparty that was acting as the Plan's agent in securities lending transactions.

NOTE F. INVESTMENTS

Investment Policy

The Plan's investment policy and any changes to the policy are adopted by the Board of Trustees of the Plan. The most recent version of the policy was approved in July 2020 and contains long-term asset allocation ranges.

The primary objective of the investment policy is to assure that assets will be available to pay retirement benefits throughout the life of the Plan and to maintain or improve the market value of the fund relative to vested and accrued benefit liabilities. The objectives seek to preserve the actuarial soundness of the Plan by achieving a long-term return of at least the actuarial return rate and to prudently manage the inherent investment risks that are related to the achievement of this goal.

**WASHINGTON SUBURBAN SANITARY COMMISSION
EMPLOYEES' RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

NOTE F. INVESTMENTS (Continued)

Long-term asset allocation ranges are developed based on several factors including: the long-term investment goals of the Plan; the Trustee's tolerance for short-term losses; the Plan's liquidity needs; and any legal or regulatory requirements.

The Plan has a rebalancing policy, which allows the Executive Director and staff the flexibility to adjust assets classes for purposes of rebalancing without approval from the Board of Trustees.

As of December 31, 2022, and 2021, the Plan's long-term asset allocation ranges were as follows:

	2022			2021		
	<u>Target%</u>	<u>Actual%</u>	<u>Range %</u>	<u>Target%</u>	<u>Actual%</u>	<u>Range %</u>
U.S. Stocks	42.0%	42.0%	37-47%	42.0%	45.5%	37-47%

Total	<u>100.0%</u>	<u>100.0%</u>		<u>100.0%</u>	<u>100.0%</u>	

Money-Weighted Rate of Return

For the years ended December 31, 2022 and 2021, the annual money-weighted rate of return on Plan investments, net of investment expense, was -14.2% and 15.9% respectively. The money-weighted rate of return considers the changing amounts invested during a period and weights the amount of pension plan investments by the proportion of time they are available to earn a return during that period. External cash flows are determined on a monthly basis and are assumed to occur at the end of each month. External cash inflows are netted with external cash outflows, resulting in a net external cash flow in each month. The money-weighted rate of return is calculated net of investment expenses.

NOTE F. INVESTMENTS (Continued)

Common stock and mutual funds classified in Level 1 of the fair value hierarchy are valued utilizing prices last quoted sales/bid prices provided by independent pricing vendors. U.S government and agency securities, municipal and corporate bonds, international common stocks, and mutual funds classified in Level 2 of the fair value hierarchy are valued utilizing a matrix pricing technique. Matrix pricing is utilized to value securities based on the securities' relationship to benchmark quoted prices.

Commingled funds consist of investments in three investments trusts, the objectives of these funds are to invest in a diversified portfolio of international equity securities for capital appreciation, approximate the performance of the Russell 1000 Value Index, and investing in a portfolio of equity securities of companies in developed and emerging markets. These investments are valued at the net asset value (NAV) of units of the commingled trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

The Empower/Prudential Guaranteed Deposit Fund is a stable value fund that invests in a broadly diversified, fixed-income portfolio. The portfolio is primarily invested in public bonds, commercial mortgages, and private placement bonds. The valuations are based on manager-provided net asset values located in monthly statements.

The valuation method for investments measured at the net asset value (NAV) per share (or its equivalent) as of December 31, 2022 and 2021 is presented on the following tables:

Risks Common to Investments

The Plan's investments are subject to the following risks common to investments:

- ***Custodial Credit Risk*** is the risk that, in the event of a failure of the counterparty, the Plan will not be able to recover its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Plan, and are held by either the counterparty or the counterparty's trust department or agent but not in the Plan's name.

The Plan's investments for fiscal year 2022 and 2021 are partially insured and registered in the Plan's name and are generally segregated by the counterparty in a manner to protect them from certain claims by creditors. The Plan also invests in mutual and commingled trust funds which are not generally exposed to custodial credit risks. At December 31, 2022 and 2021, there were no investments subject to custodial credit risk. The Plan has no policy to address any additional amounts potentially at risk.

- ***Credit Risk*** is the risk that an issuer to an investment will not fulfill its obligations. The Plan seeks to maintain a diversified portfolio of fixed income securities in order to obtain the highest total return at an acceptable level of risk. As of December 31, 2022, and 2021, the quality ratings of the Plan's fixed income investments in U.S. Government obligations and corporate bonds were as follows.

NOTE F. INVESTMENTS (Continued)

Certain mutual funds of the Plan maintain investments that include fixed income securities, such as, the Vanguard High Yield Corporate Fund (Vanguard). As of December 31, 2022, and 2021, the ratings of the underlying securities of the Vanguard Fund were AAA/BBB/BB/B/Below B. The other mutual funds were equity-based, and the investment contracts were unrated. The Plan has no policy to address any additional amounts potentially at risk.

- **Interest Rate Risk** is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the sensitivity of the fair values of the Plan's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the Plan's fixed income investments by maturity:

Fiscal Year 2022

NOTE F. INVESTMENTS (Continued)

- **Foreign Currency Risk** is the risk that changes in exchange rates will adversely affect the fair value of an investment in a foreign financial institution. The Plan mitigates this risk by limiting its investments in non-U.S. securities. As of December 31, 2022, and 2021, the Plan held no investments in foreign currency denominations, however the following mutual and/or comingled funds contained underlying foreign related investments as follows:

	<u>2022</u>	<u>2021</u>
Dodge & Cox Global Stock	\$ 65,479,075	\$ 69,507,456
MFS Low Volatility	63,654,891	68,750,000

NOTE F. INVESTMENTS (Continued)

For U.S. Government or Agency securities, investment managers invest no more than 7 percent of their portion of Plan assets, at cost, and no more than 10 percent at market, in securities of any one issuer or its subsidiaries or affiliates.

NOTE G. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of plan net position.

NOTE H. RELATED-PARTY TRANSACTIONS

An affiliate of the Plan's custodian, Northern Trust Asset Management, became an investment manager for the Plan in fiscal year 2014. At December 31, 2022, funds managed totaled \$59.72 million, and were comprised of cash equivalents and investments of \$1.00 million and \$58.72 million, respectively. For the year ended December 31, 2022, the Plan incurred \$110,511 in management fees with this investment manager.

At December 31, 2021, funds managed totaled \$69.17 million, and were comprised of cash equivalents and investments of \$3.23 million and \$65.94 million, respectively. For the year ended December 31, 2021, the Plan incurred approximately \$112,916 in management fees with this investment manager.

NOTE I. NET PENSION LIABILITY OF WSSC WATER

The measurement date for implementation of GASB 67 are the Plan's fiscal year ending December 31, 2022 and 2021. Plan assets (Fiduciary Net Position) are measured as of these dates. The total Pension Liability (TPL) were based on an actuarial valuation as of June 30, 2022 and 2021, with adjustments made for the half-year difference. Adjustments include service cost, interest on total pension liability, and expected benefit payments during the half-year. Under GASB 67, the Net Pension Liability (NPL) is established as the difference between the Total Pension Liability and the Plan Fiduciary Net Position.

The components of the net pension liability of WSSC Water at December 31, 2022 and 2021 were as follows:

	2022	2021
Total Pension Liability	\$1,082,194,985	\$1,036,772,230
Plan Fiduciary Net Position	(828,595,118)	(1,012,090,961)
WSSC Water's Net Pension Liability	\$ 253,599,867	\$ 24,681,269
 Plan's Fiduciary Net Position as a Percentage of the Total Pension Liability	76.6%	97.6%

Actuarial assumptions

The total pension liability as of June 30, 2022 and June 30, 2021 was determined by an actuarial valuation using the following actuarial assumptions, applied to all periods included the measurement:

	2022	2021
Inflation	2.50%	2.50%
Salary increases	2.75% to 7.50%	2.75% to 7.50%
Investment rate of return	7.00%	7.00%

Mortality rates applicable to 2022 and 2021 were based on the Pub-2010(B) Mortality Tables for Males and Females, projected on a generational basis using Scale SSA. A 109% adjustment factor is applied to female mortality rates. The actuarial assumptions used in the June 30, 2022 and 2021 valuations were based on the results of an actuarial experience analysis covering 2015 through 2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

**WASHINGTON SUBURBAN SANITARY COMMISSION
EMPLOYEES' RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

NOTE I. NET PENSION LIABILITY OF WSSC WATER (Continued)

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. This is then modified through a Monte-Carlo simulation process, by which a (downward) risk adjustment is applied to the baseline expected return. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation and the final investment return assumption, and are summarized in the following table:

	2022	Approximate Portfolio Allocation	2021	Approximate Portfolio Allocation
Asset class:				
U.S. Equity	5.90%	42.00%	5.95%	42.00%
Non-U.S. Equity	6.50%	19.00%	6.65%	19.00%
U.S. Fixed Income	2.00%	32.00%	1.25%	32.00%
Real Estate	4.50%	7.00%	4.80%	7.00%
Total Weighted Average Real Return	<u>4.67%</u>	<u>100.00%</u>	<u>4.50%</u>	<u>100.00%</u>
Plus Inflation	<u>2.50%</u>		<u>2.50%</u>	
Total Return without Adjustment	<u>7.17%</u>		<u>7.00%</u>	
Risk Adjustment	<u>-0.17%</u>		<u>0.00%</u>	
Total Expected Return	<u>7.00%</u>		<u>7.00%</u>	

Discount Rate

The discount rate used to measure the total pension liability was 7.00% as of December 2022 and 2021. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Commission contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Schedule of Contributions:

Valuation date:

Actuarially determined contribution rates are calculated as of July 1st of the fiscal year in which the contributions are reported. WSSC Water's policy is to complete an actuarial study at least once every two years.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age normal (funding valuation uses a fixed rate of contribution)
Inflation	2.50%
Salary increases	2.75 to 7.50 % including inflation
Investment rate of return	7.0% net of pension plan investment expenses, including inflation
Cost of living adjustments	2.50%
Retirement age	Table of rates by age and eligibility
Mortality	Mortality rates were based on the Pub-2010(B) Mortality Tables for Males and Females, projected on a generational basis using Scale SSA. A 109% adjustment factor is applied to female mortality rates. The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience analysis covering 2015 through 2020.
